

DAY DREAMING

Visions of Youth and Beauty

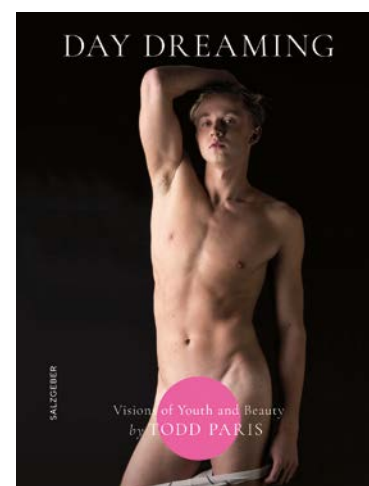

by TODD PARIS

PRESS NOTE

"Day Dreaming" opens the door to a world where naked bodies become works of art. Young men show themselves with all of their strength, beauty and vulnerability. They invite us into a dialogue about dreams and desires, becoming one with the artistic vision of photographer Todd Paris. His images are radiant compositions made of bodies, gestures, color and light: hymns to beauty.

In today's world of social media, self-portraits and even self-nudes are ubiquitous. But as I was taught, anybody can take a "snapshot" (and in today's world, anyone can apply a filter). A "photograph" requires a unique point of view manifested through composition, lighting, drama or actual perspective." (Todd Paris)
